

Thermojetics® Instant Herbal Beverage*

A refreshing and exhilarating herbal beverage that combines ancient herbal wisdom with modern-day convenience.

The perfect beverage – Instant Herbal Beverage is delicious and refreshing hot or cold. Combining ancient herbal wisdom with modern day ingenuity, this low-calorie beverage contributes to your well-being and helps support normal vitality. Available in four delicious flavours: Lemon, Peach, Raspberry and Original.

Do you drink a lot of coffee?

Too much coffee can rob the body of essential nutrients and increase free radical damage. Instant Herbal Beverage's botanical ingredients help provide a refreshing and invigorating feeling; it is a gentler alternative – hot or cold. Why not use one of the four flavours as a base for a variety of liquid refreshments?

Do you often choose a fizzy drink rather than water?

Fizzy drinks contain, on average, six teaspoons of sugar in each can. Plain water is often the last option when choosing a drink, despite its importance to our well-being. The fruity flavours of Instant Herbal Beverage can add a refreshing zing to plain water. This easy-to-make beverage can give you an exciting alternative to fizzy drinks in seconds. The ingredients in Instant Herbal Beverage contain substances that add value to your daily intake of fluid, so drinking Instant Herbal Beverage in place of less desirable drinks can help reduce consumption of anti-nutrients such as refined sugar whilst boosting your water intake.
